

ACT Assessment

Grayson County College does not require the ACT for admission to the college. However, the GCC Testing Center administers the ACT on all national test dates as a service to the community.

There are two test options available:

1. ACT – made up of multiple-choice tests in English, mathematics, reading, and science
2. ACT Plus Writing – includes the multiple-choice tests plus an optional 30-minute Writing Test and has a higher fee

Taking the Writing Test does not affect your subject area scores or your Composite score. To take the Writing Test, you must also take the multiple-choice tests in the same session.

You should decide whether to take the Writing Test based on the requirements of the institutions to which you are applying. Check directly with the institutions you are considering to find out their requirements, or ask your high school counselor which test option you should take.
