

Search for President

The Grayson County College Board of Trustees seeks applicants for the position of President of the College. The Board is seeking an individual who understands the challenges and opportunities of a rural, public, comprehensive community college. The President will be a dynamic leader, an effective decision maker, a consensus builder and a strategic thinker with a strong commitment to academic excellence and student success.

The ideal candidate for the position will have an earned doctorate from a regionally accredited university; five years responsible college administrative experience, with community college experience preferred; and experience working directly with college students, with college classroom teaching experience preferred.

Founded in 1965, Grayson County College has a strong history of providing the citizens of North Texas with lifelong learning focused on educational, cultural, social and public service activities that enrich individuals and the community. The College offers 60-plus academic and technical programs that serve approximately 5000 students each fall and spring semester, and offers on-campus living for approximately 150 student athletes, international, and regional students. GCC is proudly finishing the final phase of a multi-year, multi-million dollar renewal and expansion program. GCC is located between Sherman and Denison, Texas, just north of the Dallas/Ft. Worth metroplex on Highway 75, and south of the Oklahoma state line. The citizens we serve are proud of beautiful Lake Texoma and all of its amenities; area cultural arts activities; high achieving independent school districts; healthcare, manufacturing, and agricultural industries; and the quality of life in each community. The area's attitude is one of progress, but in a relaxed atmosphere.

While applications will be accepted until the position is filled, interested parties are encouraged to submit a letter of application, completed Presidential Application, detailed resume or curriculum vitae, and five names, addresses, and telephone numbers of professional references by April 6, 2012 to receive optimal consideration.
