Office and Computer Technology

Program Description

The development and use of computers in the office has created a need for individuals who are proficient in areas beyond the traditional office skills. Today's office requires individuals who are able to take full advantage of the technology available in order to get the job done quickly and accurately.

The degree and four certificates are designed to prepare individuals for the challenges of today's office. Students will obtain the skills and technical knowledge necessary to enter the job market in a variety of office administration/support positions. The program would allow the student, if desired, to earn at least one certificate while working toward the associate degree.

Course Requirements

Grayson County College requires a High School Diploma or equivalent.
 The Associate of Applied Science Degree requires successful completion of the TASP test.
 The certificates are TASP-exempt and require only completion of the Work Keys exam.
 Some of the programs require prerequisites. Refer to the GCC catalog for specific information.

Capstone Experience

Graduation with the Associate of Applied Science Degree or one of the certificates requires the successful completion of a comprehensive exit exam administered by the Office and Computer Technology Department. The exam must be completed with at least 70 percent accuracy during the week prior to final exams of the semester in which the coursework is completed.

Job Outlook

Employment in the office support area will continue to increase due to technological advances in the areas of accounting, software applications, health care, and office administration. These positions will require office workers who are skilled and knowledgeable in the most recent innovations in the business world. Competition should remain keen due to the large number of competent, experienced workers seeking these positions. Therefore, a good educational background will be necessary to remain competitive in the workforce.
