PROGRAM LEARNING OUTCOME

DOCUMENT OF IMPROVEMENT

CURRICULUM MAP

2022 – 2023 Academic Year Assessment
Program Learning Outcomes (PLO) & Document of Improvement (DOI)
ARTS & HUMANITIES: FINE ARTS – AA

PLO MEASURED

The student will be able to design and create a variety of two-dimensional and three-dimensional compositions that demonstrate an understanding of the visual elements and principles of design.

CORE CURRICULUM COMPONENT

CS3: Students will develop, interpret, and express ideas through visual communication.

DESIRED RESULTS

Increase student awareness of visual elements/design principles with respect to visual communication. 100% of students with a C or better.

COLLECTION METHOD DATA

Assignment

ASSESSMENT MEASURE

DIRECT

ASSESSMENT METHOD

Rubric scored students on visual elements/design principles

HISTORICAL AGGREGATED COURSE RESULT

100% of students achieved a "C" or better.

DISAGGREGATED INSTRUCTIONAL METHOD/LOCATIONS

FACE-TO-FACE

CURRENT AGGREGATED RESULT

Only one mode of delivery. Student success indicates the assignment achieved the program learning outcome.

IMPROVEMENT PLAN 2022-2023 RESULTS CYCLE ONE PLO 2 & 3

INSTRUCTION

Revise lecture/assignments for ARTS1303 and ARTS1304 to improve student outcomes and evaluate PLO4 (The student will develop and demonstrate a visual memory, will be capable of identifying and understanding works of art, and will acquire a knowledge of basic art history periods/movements while comprehending historic continuities).

DOCUMENT OF IMPROVEMENT PRIOR YEAR

Develop instruction to model and reinforce the use of the "language of art" in critiques.

DOCUMENTATION OF IMPROVEMENT PLAN 2023-2024 CYCLE ONE PLO 4 CYCLE TWO PLO 1

Lecture and assignment focus more specifically on learning objectives: visual elements and design principles.

ARTS & HUMANITIES: FINE ARTS – AA

Program Learning Outcome Curriculum Map

COURSE	1 ST GOAL	2 ND GOAL	3 RD GOAL	4 TH GOAL
	The student will be able to design and create a variety of two-dimensional and three-dimensional compositions that demonstrate an understanding of the visual elements and principles of design.	Students will be able to verbally present their work, to use the language of art, and to describe the decision made in the process of creating it.	Students will be able to develop a portfolio which includes a resume, artist statement, and 2 CD's of their body of work.	The student will be able to develop and demonstrate a visual memory capable of identifying and knowing works of art, acquiring a knowledge of basic historic data, learning and appropriating use of terminology of the field, and comprehending historic continuities.

2022 – 2023 Academic Year Assessment
Program Learning Outcomes (PLO) & Document of Improvement (DOI)
ARTS & HUMANITIES: MUSIC – AA

PLO MEASURED
Student will be able to demonstrate a knowledge of the historical and social contexts of music

CORE CURRICULUM COMPONENT
CS1: Students will develop, interpret, and express ideas through written communication. SR1: Students will identify intercultural competence.

DESIRED RESULTS
75% completion of capstone project.

COLLECTION METHOD DATA
Through an assignment in the course.

ASSESSMENT MEASURE	ASSESSMENT METHOD
DIRECT	Written essays that require students to explain the cultural significance certain pieces of music.

HISTORICAL AGGREGATED COURSE RESULT
100% completion with passing grade.

DISAGGREGATED INSTRUCTIONAL METHOD/LOCATIONS	FACE-TO-FACE

CURRENT AGGREGATED RESULT
100% Face to Face

IMPROVEMENT PLAN 2022-2023 RESULTS PLO CYCLE ONE PLO 2 & 3
<u>INSTRUCTION</u> Continue to address the cultural significance through lectures of certain pieces of music.
<u>DOCUMENT OF IMPROVEMENT PRIOR YEAR PLO</u> <u>CURRICULUM</u> Based on the results, we will improve the curriculum area by consulting with surrounding universities to align our curriculum for smoother transfers and recruit more students into the program.

DOCUMENT OF IMPROVEMENT PLAN 2023-2024 CYCLE ONE PLO 4 CYCLE TWO PLO 1
<u>CURRICULUM</u> For this academic year, we assess a different PLO to continue to improve the program.

ARTS & HUMANITIES: MUSIC – AA

Program Learning Outcome Curriculum Map

COURSE	1 ST GOAL	2 ND GOAL	3 RD GOAL	4 TH GOAL	5 TH GOAL
	Students will demonstrate an understanding of music theory.	Students will synthesize skills in the ability to understand the music they hear.	Student will be able to demonstrate a knowledge of the historical and social contexts of music.	Students will be able to demonstrate growth and progress in their ability to play an instrument or sing.	Students will be able to apply the wisdom gained from the experience of performing and rehearsing with others in an ensemble setting.

Program Learning Outcomes (PLO) & Document of Improvement (DOI)

ARTS & HUMANITIES: THEATRE – AA

PLO MEASURED
Students will demonstrate mastery of industry vocabulary. Students will exhibit the discipline, work ethic and attitude of a theatre professional

CORE CURRICULUM COMPONENT
CS1: Students will develop, interpret, and express ideas through written communication. CS2: Students will develop, interpret, and express ideas through oral communication. TW1: Students will work cooperatively with their peers and leaders to more effectively solve problems by utilizing insights from multiple perspectives.

DESIRED RESULTS
70% of students will perform at or above the 75% proficiency level

COLLECTION METHOD DATA
Vocabulary Quiz/Test for CS1 in DRAM 1351 Demonstration of vocabulary usage in DRAM 1351 CS2 Using available materials student groups, assigned in theatre standard leadership positions, will plan, and construct functional and structurally sound scenic elements for TW1 in DRAM1330

ASSESSMENT MEASURE	ASSESSMENT METHOD
BOTH DIRECT & INDIRECT	Vocabulary Quiz/Test for CS1 in DRAM 1351 Demonstration of vocabulary usage in DRAM 1351 CS2 Using available materials student groups, assigned in theatre standard leadership positions, will plan, and construct functional and structurally sound scenic elements for TW1 in DRAM1330

HISTORICAL AGGREGATED COURSE RESULT
Desired results 2021-2022 & 2022-2023 - 70% of students will perform at or above the 75% proficiency level 100% met both years

DISAGGREGATED INSTRUCTIONAL METHOD/LOCATIONS	FACE-TO-FACE / HYBRID
FACE-TO-FACE: DRAM 1330 for TW1 One section of DRAM 1330 was offered for Fall 2022. <ul style="list-style-type: none"> • 6 students were enrolled and all completed the course. • 6 of the 6 students performed above the 75% proficiency level. • 100% met. 	
HYBRID: DRAM 1351 for CS1 & CS2 One section of DRAM 1351 was offered for Fall 2022. <ul style="list-style-type: none"> • 7 students were enrolled and all completed the course. • 7 of the 7 students performed above the 75% proficiency level. • 100% met. 	

CURRENT AGGREGATED RESULT

FACE-TO-FACE: DRAM 1330 for TW1

One section of DRAM 1330 was offered for Fall 2022.

- 6 students were enrolled and all completed the course.
- 6 of the 6 students performed above the 75% proficiency level.
- 100% met.

HYBRID: DRAM 1351 for CS1 & CS2

One section of DRAM 1351 was offered for Fall 2022.

- 7 students were enrolled and all completed the course.
- 7 of the 7 students performed above the 75% proficiency level.
- 100% met.

IMPROVEMENT PLAN 2022-2023 RESULTS CYCLE ONE PLO 2 & 3

INSTRUCTION

Combined Aggregated Results for CS1, CS2, & TW1 were met at 100% for 2022.

For 2023 more focused leadership assignments will be made following week 1 evaluations to align with students in DRAM 1330.

ASSESSMENT

Combined Aggregated Results for CS1, CS2, & TW1 were met at 100% for 2022.

For 2023 more focused leadership assignments will be made following week 1 evaluations to align with students in DRAM 1330.

DOCUMENT OF IMPROVEMENT PRIOR YEAR

INSTRUCTION

Improve the desired results for DRAM 1352 will add the Character Analysis Writing Assignment in the form of essay questions to DRAM 1351 course to Fall 2020. This assignment will be in addition to the Character Analysis Quiz (multiple choice).

DOCUMENT OF IMPROVEMENT PLAN 2023-2024 CYCLE ONE PLO 4 CYCLE TWO PLO 1

1. All students performed above the 75% assessment goal in DRAM 1351 for CS1 & CS2 in the Fall 2022 semester. The assessment tool mastered was a vocabulary quiz. As recommended in the DOI last year an additional assignments/projects should be added for Fall 2022 to support retention and usage of theatre vocabulary. Therefore, interactive in class activities were added to encourage proper usage and application of new theatre terminology. We will move on to another Program Learning and Institutional Learning outcome for Fall 2023.
2. All students performed above the 75% assessment goal for DRAM 1330 (TW1) in the Fall 2022 semester. We will move on to another Program Learning and Institutional Learning outcome for Fall 2023.

ARTS & HUMANITIES: THEATRE – AA

Program Learning Outcome Curriculum Map

COURSE	1 ST GOAL	2 ND GOAL	3 RD GOAL	4 TH GOAL	5 TH GOAL
	Adhere to theatre safety guidelines.	Exhibit the discipline, work ethic and attitude of a theatre professional.	Work effectively in a team, having developed collaboration and teamwork skills through class exercises, assignments and performances.	Demonstrate mastery of industry vocabulary and a working knowledge regarding the different technical and creative jobs related to theatre and theatre production.	Demonstrate competency with basic audition techniques.

BUSINESS & ENTREPRENEURSHIP: ACCOUNTING – AAS

PLO MEASURED

PLO #2 – Use computerized accounting software to record business transactions and financial statements.
 PLO #3 – Analyze financial statements and communicate a company's financial position.

CORE CURRICULUM COMPONENT

CT3: Students will analyze, evaluate, and synthesize information.

DESIRED RESULTS

PLO #2 -- 70% of the ACNT1313 students will successfully use computerized accounting software to record business transactions and financial statements.

PLO #3 -- 70% of the ACCT2302 students will successfully analyze financial statements and communicate a company's financial position.

COLLECTION METHOD DATA

PLO #2 – Final course grade in ACNT1313.

PLO #3 – ACCT2302 Lab assignment

ASSESSMENT MEASURE

INDIRECT

ASSESSMENT METHOD

PLO #2 – Final course grade in ACNT1313.

PLO #3 – In ACCT2302 there is a financial statement analysis lab assignment where students analyze financial statements and communicate a company's financial position.

HISTORICAL AGGREGATED COURSE RESULT

PLO#2 -- In Spring 2021 69% of ACNT1313 students successfully completed the course. In Spring 2022 93% of ACNT1313 students successfully completed the course. Course not offered during fall semester

PLO#3 -- In Fall 2021, 69% hybrid and 87% internet ACCT2302 students successfully completed the lab assignment with a grade of 70% or higher. In Spring 2022, 75% hybrid and 66% internet ACCT2302 students successfully completed the lab assignment with a grade of 70% or higher.

DISAGGREGATED INSTRUCTIONAL METHOD/LOCATIONS

ONLINE / HYBRID

ONLINE:

PLO #2 -- 95.85% ACNT1313 students were successful in completing the course during spring 2023. This course was not offered during the fall 2022 semester.

PLO #3--Fall 2022 ACCT2302 77% of students scored 70% or higher on the lab assignment. Spring 2023 ACCT2302 1st 8 week term 87% and 2nd 8 week term 74% of students scored 70% or higher on the lab assignment.

HYBRID:

PLO #3--Fall 2022 ACCT2302 75% of students scored 70% or higher on the lab assignment. Spring 2023 ACCT2302 2nd 8 week term 88% of students scored 70% or higher on the lab assignment.

CURRENT AGGREGATED RESULT

PLO #2 -- 95.85% ACNT1313 students were successful in completing the course during spring 2023. This course was not offered during the fall 2022 semester.

PLO #3 -- 80% of ACCT2302 students successfully completed the financial statement analysis lab ass

IMPROVEMENT PLAN 2022-2023 RESULTS CYCLE ONE PLO 2 & 3

INSTRUCTION

PLO #3 -- Instructional videos will be revised for clarity.

TECHNOLOGY

PLO #2 -- Changed software to QuickBooks online for computer platform neutrality

DOCUMENT OF IMPROVEMENT PRIOR YEAR

TECHNOLOGY

The Chapter 4 Lab requires combining many pages of data from the Cengage environment. Students sometimes give up because they are overwhelmed by the number of pages involved. Will spend more class time illustrating how to maneuver through the assignment successfully.

DOCUMENTATION OF IMPROVEMENT PLAN 2023-2024 CYCLE ONE PLO 4 & CYCLE TWO PLO 1

95.8% of ACNT1313 students successfully completed the course with a 70% or above.

BUSINESS & ENTREPRENEURSHIP: ACCOUNTING – AAS & CERTIFICATE

PLO #3 -- In 2022-23, 89% of students in BUSI 2305 successfully analyzed a company's financial position and drew statistical inferences from the data.
 PLO #4 -- In 2022-23, 86% of BCIS 1305 students successfully demonstrated job search/interviewing skill

IMPROVEMENT PLAN 2022-2023 RESULTS CYCLE ONE PLO 2 & 3

INSTRUCTION

PLO #3 -- A video to refresh students on how to read and calculate financial documents will be added to the assignment for additional clarity.

ASSESSMENT

PLO #4 -- The grading rubric will be tweaked to include additional clarity and detailed verbiage to guide students as they develop their job search criteria.

DOCUMENT OF IMPROVEMENT PRIOR YEAR

INSTRUCTION

Instruction: Additional instructional videos will be created to aid in student learning of material. Curriculum: Rework the student lab assignments in this unit. Since BUSI 2305 (business statistics) is not fully implemented in the field of study during the evaluation period, we will evaluate this learning outcome again in 2021-2022.

DOCUMENTATION OF IMPROVEMENT PLAN 2023-2024 CYCLE ONE PLO 4 & CYCLE TWO PLO 1

An instructional video for the final accounting project was developed for all Canvas course shells for Fall 2022. This video was tweaked and redeployed for Spring 2023.

2022 – 2023 Academic Year Assessment
Program Learning Outcomes (PLO) & Document of Improvement (DOI)
BUSINESS & ENTREPRENEURSHIP: HOSPITALITY MANAGEMENT – AAS

PLO MEASURED

PLO #2 Identify various microorganisms, and parasites, fungi and other food born illnesses and instruct students on how to prevent these illnesses and teach employees proper sanitation and safety techniques.
 PLO#3 Gain practical industry experience prior to graduation through an internship and other work experience.

CORE CURRICULUM COMPONENT

CT1: Students will generate and communicate ideas by combining, changing, or reapplying existing information.
 TW1: Students will work cooperatively with their peers and leaders to more effectively solve problems by utilizing insights from multiple perspectives.

DESIRED RESULTS

PLO#2 We want students to be able to pass the SerSafe Food Manager Certification at a 80% pass rate the first time that they take the exam.
 PLO#3 The program wants to see students engaged in their practicum work and obtain 8 or above ratings on all questions concerning work performance.

COLLECTION METHOD DATA

PLO#2 Students will be administered the test and then it will be graded by the national restaurant association education foundation. Those results will then be shared with the professor.
 PLO#3 Data is collected with the employers completing all of the students practicum paperwork

ASSESSMENT MEASURE

ASSESSMENT METHOD

INDIRECT

PLO#2 The nationally industry recognized ServSafe Food Manager Examination
 PLO#3 Student Employee evaluation.

HISTORICAL AGGREGATED COURSE RESULT

PLO#2 We have maintained around an 88% pass rate on first attempt of this exam.
 PLO#3 Students completing the course have had a 100% rating of 8 or above.

DISAGGREGATED INSTRUCTIONAL METHOD/LOCATIONS

FACE-TO-FACE

PLO#2 During this year the two classes that were taught had a 87% pass rate on first time taking the exam.
 PLO#3 During this academic year, all students that completed the course HAMG2167 got results of 8 or higher on their practicum paperwork.

CURRENT AGGREGATED RESULT

PLO#2 During this year the two classes that were taught had a 87% pass rate on first time taking the exam.
 PLO#3 During this academic year, all students that completed the course HAMG2167 got results of 8 or higher on their practicum paperwork.

IMPROVEMENT PLAN 2022-2023 RESULTS CYCLE ONE PLO 2 & 3

INSTRUCTION

PLO#2 We are continuing to include the updates from ServSafe that are not included in the textbook from the National Restaurant Association and the Food and Drug Administration. This is allowing us to reinforce the students learning through multiple avenues. Second, the exam that has started to include updates that had not been communicated out to instructors is now able to be covered in class with this new information. For the 2023/24 academic year, we will be able to continue reworking quizzes, PowerPoints and exams to reflect this new information from the FDA.

CURRICULUM

PLO#2 We have adopted the 8th edition of the ServSafe Food Mangers course book and added the new FDA food code updates for the 23/24 year.

PLO#3 As we have seen the ratings so high on the student evaluation forms, we are going to make it so that the eval

DOCUMENT OF IMPROVEMENT PRIOR YEAR

INSTRUCTION

After looking at the results and knowing what occurred to the one student who did not complete the course, I feel that the improvement needs to come in instruction in what is expected out of the students while working in the industry. This will include more conversation about expectations clearly defined in classes before the student gets into the practicum course. This conversation would be best put into the human resource class.

DOCUMENTATION OF IMPROVEMENT PLAN 2023-2024 CYCLE ONE PLO 4 & CYCLE TWO PLO 1

We decided that the better solution was to have a sit down and talk with the managers that were in charge of completing the practicum paperwork. We still saw excellent scores on the practicum paperwork. We also have 100% of students with employment upon graduation.

CURRICULUM MAP

2022 – 2023 Academic Year Assessment

Program Learning Outcomes (PLO) & Document of Improvement (DOI)

INDUSTRIAL TECHNOLOGY: ADVANCED MANUFACTURING TECHNOLOGY – AAS

PLO MEASURED

Overall, we find that students within our hybrid model strive in the face-to-face instruction. We have also determined that dual credit students must be held to a higher standard of accountability, as they struggle with reading their assigned content as well as completing the online assessments. Twenty five percent of the dual credit students receive grades above a B while the other 75% maintain low C's due to their failure to complete the online assessments at all or on time. When looking at the results of traditional students this number is flipped from 75% completing the course work at a high B to A and the other 25% failing due to outside influences.

CORE CURRICULUM COMPONENT

PR1: Students will evaluate choices and actions, and relate consequences to decision making.

DESIRED RESULTS

We are attempting to create a desire for students to engage in the program, and engage their interest in the field rather than having a singular focus. We installed lockers to minimize outside influences of phones and incorporated a stiff disciplinary method for those found on their phone while in the lab. This reduced overall phone usage in the lab. Work, school, and life balance is one of the largest hinderance to high school students engaged in multiple activities at school and who are actively working.

COLLECTION METHOD DATA

Our collection of interest will be based off of our mentoring program, to connect with students and their occupational goals going forward. As manufacturing in not just a machinist-based program our desire is to model the needs of the community to the desires of the students.

ASSESSMENT MEASURE	ASSESSMENT METHOD
BOTH DIRECT & INDIRECT	Assessment was based on asking students questions and showing them how the skills gained would help them in the future.

HISTORICAL AGGREGATED COURSE RESULT

Historically students were unengaged in the program because of the online course work, by allowing them more shop time if work was completed a majority of the students worked ahead in their online assignment and spent more time in the shop. By enforcing strict phone policies and providing lockers we increased lab time and had more lab participation.

DISAGGREGATED INSTRUCTIONAL METHOD/LOCATIONS

HYBRID

Students with jobs outside of high school mainly those who are dual credit are less likely to achieve a higher-grade point average do to lost time in the program because of scheduling conflicts.

Students need to understand why they are doing any particular lab or situation, by showing them the reasoning or uses of any particular lab you get far more engagement from the students.

Working with workforce solutions to set up site visits for just the students in the program and to meet with industry leaders.

CURRENT AGGREGATED RESULT

Online students failure rate is 50%, mostly attributed to the student not doing their assignment or completing it past the due date. 95% hybrid models passed, minus those who had poor attendance or failed to complete their labs in a timely manner.

IMPROVEMENT PLAN 2022-2023 RESULTS CYCLE ONE PLO 2 & 3

INSTRUCTION

Instruction improvement will be based on adding hard cut-off dates for students falling behind. Reduce the overall time spent online.

CURRICULUM

Curriculum improvement will come from adjusting number of course assignments based on the number of hours students are allowed in class each week, so each task is obtainable.

TECHNOLOGY

Advanced manufacturing will apply for the Perkins grant in order to update its CNC machines along with obtaining a Coordinate measuring machine which is used extensively in industry today.

DOCUMENT OF IMPROVEMENT PRIOR YEAR

CURRICULUM

Continuous process. Curriculum will be reviewed bi-annually and changes will be made by the consent of the Curriculum Committee.

ASSESSMENT

Assessments will be made on a continuous basis, while action plans for the outcomes will be implemented on an ongoing basis as well.

New on-line software with interaction capabilities will be added to the curriculum.

DOCUMENTATION OF IMPROVEMENT PLAN 2023-2024 CYCLE ONE PLO 4 & CYCLE TWO PLO 1

Dual credit students grades when from a C average to B respectively by the majority of the students, who had good attendance. Those who attendance was poor excelled in the lab portions when participating but struggled in their online work.

RECOMMENDATIONS FROM INTUITIONAL EFFECTIVENESS COORDINATOR – CAMILLE WILSON

2022 – 2023 Academic Year Assessment
Program Learning Outcomes (PLO) & Document of Improvement (DOI)
INDUSTRIAL TECHNOLOGY: CADD – AAS

PLO MEASURED

Create detail and assembly drawings, using American National Standards (ANSI) and/or International Standards Organization (ISO) specifications

CORE CURRICULUM COMPONENT

CS3: Students will develop, interpret, and express ideas through visual communication.
 CT1: Students will generate and communicate ideas by combining, changing, or reapplying existing information.

DESIRED RESULTS

That students would understand that although each person may use a different way to achieve the same results (i.e. different drawings, ways to draw, different programs). As a whole we must utilize a "Standard" across the board so that everyone is able to communicate with each other. These principles are learned both in the classroom and in the workplace. Each firm may have their own list of "Standard Practices" but it revolves around the "Universal or International Standards" that are put in place across the world. My hope is that each student left with an understanding that we do things for a reason, and that we communicate with each other using the same language (as draftsman, drawing is our language). Everyone has to be able to communicate on the same page.

COLLECTION METHOD DATA

By giving various assignments requiring the students to show the basics of Computer Aided Drafting and Design based upon the industry standards. Assessing each students progress and involving each student in different stages of an interview process.

ASSESSMENT MEASURE

ASSESSMENT METHOD

BOTH DIRECT & INDIRECT

I have utilized both Formative and Summative methods of assessment. During the semester I can change a part of the assignments if a certain group of students are just not getting the concepts, just by seeing the grades on tests and homework assignments. Also we have a end of term test to see the knowledge that was retained throughout the semester.

HISTORICAL AGGREGATED COURSE RESULT

In the past, the coursework seem to be outdated due to current workplace requirements. Each semester I am changing bits and pieces of the curriculum to accommodate these industry changes. Results have been good and students are leaving with jobs working in the fields taught in this program.

DISAGGREGATED INSTRUCTIONAL METHOD/LOCATIONS

FACE-TO-FACE / HYBRID / OFF-SITE LOCATIONS

FACE-TO-FACE

Lecture in classroom, seems to be even with different groups of people, older students seem to be ontime coming to lectures and younger students seem to be late or would rather utilize their time on the computer

HYBRID

Students have online links to help guide them through the course work. Younger students seem to benefit more from the hybrid situation

OFF-SITE LOCATIONS

Optional site visits, older students/working students seem to have more hands on experience, also seem to be quicker at picking things up on their own and learning by doing it themselves

CURRENT AGGREGATED RESULT

Overall it takes all ways of delivery to complete this degree. Each piece has its own benefits. Face to Face has is benefits to people who like to communicate and get a hands on approach. Off-site locations help working people. I try to balance with a goo

IMPROVEMENT PLAN 2022-2023 RESULTS CYCLE ONE PLO 2 & 3

INDUSTRIAL TECHNOLOGY: COLLISION REPAIR TECHNOLOGY – AAS

PLO MEASURED

Upon completion of ABDR 1558, 90% of the students will be able to tape the car for color paint application.

CORE CURRICULUM COMPONENT

CT3: Students will analyze, evaluate, and synthesize information.

TW1: Students will work cooperatively with their peers and leaders to more effectively solve problems by utilizing insights from multiple perspectives.

DESIRED RESULTS

To teach the students to properly prepare a car for paint.

COLLECTION METHOD DATA

Applied application observed in the shop.

ASSESSMENT MEASURE

DIRECT

ASSESSMENT METHOD

Each student has a project car that they must repair, prime and paint by the end of the academic year. They are assessed by the instructor by the finished product.

HISTORICAL AGGREGATED COURSE RESULT

96% + of the ABDR students have mastered this PLO by the time they graduate the program.

DISAGGREGATED INSTRUCTIONAL METHOD/LOCATIONS

FACE-TO-FACE

100% of instruction is face to face.

CURRENT AGGREGATED RESULT

100% of instruction is delivered f2f on the main campus. There are no other locations in the 2022/2023 academic year 96% of completers mastered this PLO

IMPROVEMENT PLAN 2022-2023 RESULTS CYCLE ONE PLO 2 & 3

INSTRUCTION

Instruction: Create demo for taping process.

DOCUMENT OF IMPROVEMENT PRIOR YEAR

TECHNOLOGY

Upon completion of 1558, 95% of students will be able to adjust spray gun and adequately cover surface with paint. No improvement needed as the benchmark of 90% was met.

DOCUMENTATION OF IMPROVEMENT PLAN 2023-2024 CYCLE ONE PLO 4 & CYCLE TWO PLO 1

The new textbook and online curriculum was implemented with success. Having the theory delivered online accommodated off site learning, thus freeing up more time for hands on learning on campus.

MATH, ENGINEER & TECHNOLOGY: CLOUD COMPUTING – AAS

PLO MEASURED

Add new Fundamentals of Cloud Computing course using Amazon Web Services (AWS) online certification materials as our material.

CORE CURRICULUM COMPONENT

CT1: Students will generate and communicate ideas by combining, changing, or reapplying existing information.

CT2: Students will gather and assess information relevant to a question.

CT3: Students will analyze, evaluate, and synthesize information.

DESIRED RESULTS

Improve quality of learning for students by offering industry standard course materials as they pursue their Cloud Computing degree.

COLLECTION METHOD DATA

Conducted student surveys at the end of the course in addition to calculated course success data (student grades).

ASSESSMENT MEASURE

BOTH DIRECT & INDIRECT

ASSESSMENT METHOD

Analyze student surveys at the end of the course in addition to calculated course success data (student grades).

HISTORICAL AGGREGATED COURSE RESULT

New PLO so no historical data.

DISAGGREGATED INSTRUCTIONAL METHOD/LOCATIONS

ONLINE

Course is only conducted in online format

CURRENT AGGREGATED RESULT

100% online course (ITNW1309). Surveys indicate students enjoyed the course especially the presentation format that AWS material uses.

Course success data = 100% of students passed with a "C" or better

IMPROVEMENT PLAN 2022-2023 RESULTS CYCLE ONE PLO 2 & 3

CURRICULUM

Will continue to use AWS course material for Fall 2023 and keep monitoring student satisfaction and success rates.

DOCUMENT OF IMPROVEMENT PRIOR YEAR

DOCUMENTATION OF IMPROVEMENT PLAN 2023-2024 CYCLE ONE PLO 4 & CYCLE TWO PLO 1

Student surveys indicate high satisfaction with course material and delivery. Course success data = 100% of students passed with a "C" or better.

Program Learning Outcomes (PLO) & Document of Improvement (DOI)
MATH, ENGINEER & TECHNOLOGY: COMPUTER MAINTENANCE & NETWORKING – AAS

PLO MEASURED
Convert CPMT2345 to project only course, wherein faculty provides limited assistance to students during lab work. This helps ensure independent student mastery of computer repair concepts without them relying heavily on faculty assistance.

CORE CURRICULUM COMPONENT
CT1: Students will generate and communicate ideas by combining, changing, or reapplying existing information.
CT2: Students will gather and assess information relevant to a question.

DESIRED RESULTS
Verify mastery of learning for students by placing them in independent learning situations instead of being overly helpful when they need assistance.

COLLECTION METHOD DATA
Examined student activities during labs and also verified course success data at the end of the course.

ASSESSMENT MEASURE	ASSESSMENT METHOD
BOTH DIRECT & INDIRECT	Monitored lab work in class room including how well students performed without faculty assistance. Also direct assessment using student lab scores and overall grade score for the class.

HISTORICAL AGGREGATED COURSE RESULT
New PLO so no historical data.

DISAGGREGATED INSTRUCTIONAL METHOD/LOCATIONS	HYBRID
Only conducted in hybrid course format on main campus	

CURRENT AGGREGATED RESULT
100% Hybrid course (CPMT2345). Students functioned without assistance for the most part, only receiving help when they were really stuck on a problem. Course success data = 100% of students passed with a "C" or better.

IMPROVEMENT PLAN 2022-2023 RESULTS CYCLE ONE PLO 2 & 3
<u>INSTRUCTION</u> Will continue using current course format and monitor both lab work and course success data to ensure results remain positive.
<u>DOCUMENT OF IMPROVEMENT PRIOR YEAR</u> <u>INSTRUCTION</u> Improve communications regarding project parameters. <u>CURRICULUM</u> Split single large project into three smaller pieces <u>ASSESSMENT</u> Monitor grades for large group project in class.

DOCUMENTATION OF IMPROVEMENT PLAN 2023-2024 CYCLE ONE PLO 4 & CYCLE TWO PLO 1

Student lab work went very well. Student accomplished tasks with little to no assistance. Course success data = 100% of students passed with a "C" or better.

Program Learning Outcomes (PLO) & Document of Improvement (DOI)
MATH, ENGINEER & TECHNOLOGY: CYBER SECURITY ADMIN – AAS

PLO MEASURED	
Hire new lab assistant to help respond to student questions and assist them with their lab work.	
CORE CURRICULUM COMPONENT	
CT1: Students will generate and communicate ideas by combining, changing, or reapplying existing information. CT3: Students will analyze, evaluate, and synthesize information.	
DESIRED RESULTS	
Faster response time to student questions about their lab work will help them stay focused on concepts being covered and promote a better quality of learning.	
COLLECTION METHOD DATA	
Monitored student work during lab exercises as well as calculating overall course success rates.	
ASSESSMENT MEASURE	ASSESSMENT METHOD
BOTH DIRECT & INDIRECT	Visual monitoring of lab interaction between students and lab assistant. Also, direct course by course comparison of overall course success rates of current method with previous methods.
HISTORICAL AGGREGATED COURSE RESULT	
New PLO so no historical data.	
DISAGGREGATED INSTRUCTIONAL METHOD/LOCATIONS	HYBRID
N/A	
CURRENT AGGREGATED RESULT	
100% hybrid course (ITNW2325). Verbal surveys indicate students enjoyed the extra assistance with their work. Labs were completed in less time, and students felt they understood the concepts better because they could remain more focused on their work.	
Course success data = 100% of students passed with a "C" or better.	
IMPROVEMENT PLAN 2022-2023 RESULTS CYCLE ONE PLO 2 & 3	
<u>INSTRUCTION</u> Added salary for a lab assistant to next years budget. Will retain same assistant thru 2023 Fall and continue to monitor lab activities to ensure positive results continue.	
<u>DOCUMENT OF IMPROVEMENT PRIOR YEAR</u> <u>INSTRUCTION</u> Based on student performance adjust instructional materials to eliminate any “gaps in learning” <u>TECHNOLOGY</u> Use of tools and skills to accomplish task.	
DOCUMENTATION OF IMPROVEMENT PLAN 2023-2024 CYCLE ONE PLO 4 & CYCLE TWO PLO 1	
Overall the improvement was a great success. Labs ran smoother. Students stayed engaged and accomplished more in less time. Students grasped concepts easier because they were able to remain more focused. Verbal surveys and course success data were 100% positive toward the change.

The students investigate and apply pedagogical practices by learning learning theories, philosophies, special education and current curriculum.

CORE CURRICULUM COMPONENT

CS1: Students will develop, interpret, and express ideas through written communication.
 CT1: Students will generate and communicate ideas by combining, changing, or reapplying existing information.
 CT2: Students will gather and assess information relevant to a question.
 CT3: Students will analyze, evaluate, and synthesize information.

DESIRED RESULTS

COLLECTION METHOD DATA

Went section by section to gather data results on the assignment.

ASSESSMENT MEASURE	ASSESSMENT METHOD
DIRECT	This is assessed with an assignment in EDUC 1301, Differentiated Instruction. Instructions; with the provided lesson plan create 5 modifications to tailor instruction to children with different learning needs. Each strategy must tell the name of the population, the strategy and how it benefits that type of learner. Made modifications/strategy for one multiple intelligence, one learning style one exceptionality, one ESL (English as a Second Language) Your choice of another one 1-4

HISTORICAL AGGREGATED COURSE RESULT

FALL 2021 73% Success Rates in EDUC 1301
 Spring 2022 82% Success Rates in EDUC 1301

In 2020-2021, this assignment could not be offered because the students were not all doing face-to-face observations in public schools because of Covid restrictions.

DISAGGREGATED INSTRUCTIONAL METHOD/LOCATIONS	ONLINE
Fall 2021 EUDC1301.B01NT, 34 students enrolled. 22 = 100%, 2 = 83%, 1 = 90% 9 = DNA (did not attempt the assignment) Overall course success rate 73% 19 A, 5 B, 1 C, 9 F This course was not offered during 2nd 8 weeks of Fall.	Spring 2022 EDUC 1301.B01NT, 28 students enrolled 18 = 100%, 1 = 90%, 1 = 83% 8 = DNA (did not attempt the assignment) Overall course success rate 82% 11 A, 8 B, 4 C, 1 D, 4 F

CURRENT AGGREGATED RESULT

Only the online sections for EDUC 1301 made Fall 2021 and Spring 2022. The students that completed the assignment showed no significant different in their overall success in the course, other than any students who quit doing all work in the course before

IMPROVEMENT PLAN 2022-2023 RESULTS CYCLE ONE PLO 2 & 3

100% of all students are back observing face-to-face in public schools for all EDUC courses which require 16 hours of observation in the classroom observing a certified teacher.

Assessment of Program Learning Outcomes 2022-2023 Academic Year

Child Development

On which standard will the program report its two most recent applications of data? (Programs are encouraged to select a different standard for each Annual Report.) Please choose one:

 X Standard 1 Standard 2 Standard 3 Standard 4 Standard 5 Standard 6

Standard 1 Child Development and Learning in Context

Standard 1: Child Development and Learning in Context	Key Assessment					
	1	2	3	4	5	6
1a: Understand the developmental period of early childhood from birth through age 8 across physical, cognitive, social and emotional, and linguistic domains, including bilingual/multilingual development.				X		
1b: Understand and value each child as an individual with unique developmental variations, experiences, strengths, interests, abilities, challenges, approaches to learning, and with the capacity to make choices			X			
1c: Understand the ways that child development and the learning process occur in multiple contexts, including family, culture, language, community, and early learning setting, as well as in a larger societal context that includes structural inequities			X			
1d: Use this multidimensional knowledge—that is, knowledge about the developmental period of early childhood, about individual children, and about development and learning in cultural contexts— to make evidence-based decisions that support each child.	X					

Application 1						
			Meets	Working Towards	Does Not Meet	No Attempt
1a.	KA4 - 1311	N/A	N/A	N/A	N/A	N/A
1b.	KA 3 - 1303	Fall 22 n=14	36% n=5	36% n=5	29% n=4	% n=0
1c.	KA 3 - 1303	Fall 22 n=14	21% n=3	43% n=6	29% n=4	7% n=1
1d.	KA1 - 1356	N/A	N/A	N/A	N/A	N/A

Application 2				
	Meets	Working Towards	Does not Meet	No Attempt
Spring 23 n=15	27% n=4	20% n=3	27% n=4	27% n=4
N/A	N/A	N/A	N/A	N/A
N/A	N/A	N/A	N/A	N/A
Spring 23 n=12	50% n=6	25% n=3	8% n=1	17% n=2

Disaggregated Instructional Method						
			Meets	Working Towards	Does Not Meet	No Attempt

All classes are 100% online and only offered once a year, so there is no disaggregated data.

Data Reporting and Analysis Questions

After reviewing the data reported, answer the following questions:

1. How are candidates performing in regard to the key elements of Standard 1? Briefly describe each program's data results across all key assessments designed to measure Standard 1. (800 word limit)

Overall, candidates' performance across all key assessments related to standard 1 are below what is expected. Ideally, at least 85% of the students will meet the expectations for each key competency within Standard 1.

For Key Assessment 3 that is in TECA 1303, five out of 14 students (36%) met the expectation of key competency 1b (Understand and value each child as an individual with unique developmental variations, experiences, strengths, interests, abilities, challenges, approaches to learning, and with the capacity to make choices) and three out of 14 students (21%) met the expectation of key competency 1c (Understand the ways that child development and the learning process occur in multiple contexts, including family, culture, language, community, and early learning setting, as well as in a larger societal context that includes structural inequities). Because this class was only taught in the fall semester, there is no second application to compare. This class is only taught online so there is no data to disaggregate to compare online with hybrid/face to face. Because we are a small program there is no way to offer this class more than once a year.

For Key Assessment 4 that is in TECA 1311, four out of 15 students (27%) met the expectations for key competency 1a (Understand the developmental period of early childhood from birth through age 8 across physical, cognitive, social and emotional, and linguistic domains, including bilingual/multilingual development.) Because this class is only taught in the spring semester, there is no second application to compare. This class is only taught online so there is no data to disaggregate to compare online with hybrid/face to face. Because we are a small program there is no way to offer this class more than once a year.

For Key Assessment 1 that is in CDEC 1356, there were a total of 12 students. Of those 12 students, six (50%) met the expectation for key competency 1d (Use this multidimensional knowledge—that is, knowledge about the developmental period of early childhood, about individual children, and about development and learning in cultural contexts— to make evidence-based decisions that support each child.) This class is only taught online so there is no data to disaggregate to compare online with hybrid/face to face. Because we are a small program there is no way to offer this class more than once a year.

It should be noted that there were students “who did not attempt” certain areas of the Key Assessments or they did not do the assignment at all. It is uncertain as to whether or not they would have met the expectations.

2. How is the program using (or how does the program intend to use) the data from Standard 1 to improve teaching and learning **related to the standard**? (Programs may want to note changes made to curriculum, field experiences, program delivery mode, sequencing of courses/field experiences, academic support provided to candidates, professional development offered to/required of faculty, etc.) (800-word limit).

This data is being used to improve learning opportunities not just in these classes but all the classes with Key Assessments as well as all the classes offered in child development. My goal is to have meaningful learning opportunities that are directly related to the key competencies and thus related to the NAEYC Program Standards that are also our Program Learning Outcomes in all of the classes that are Child Development core classes.

In classes that have Key Assessments, I will divide the key assessments up into several assignments to ensure students complete them for a grade of complete/incomplete. To assess the student’s mastery of the key competencies, all parts of the Key Assessment will be turned in in its entirety to be assessed for mastery and a grade. I believe breaking the Key Assessments down in to several assignments will make it not so overwhelming and the students will not rush to complete them in the week they are due and will hopefully put more thought into the assignments, will complete all aspects of the assignment, and will overall be able to meet the expectations expected.

In addition, all classes that have a Key Assessment have a Key Assessment module that explains the importance of the Key Assessment and what it assesses.

There is also regular communication between myself (Vivian) and the Public Services success coach to advise students to not take Key Assessment classes their first year of college. This will ensure students are not being expected to know, comprehend and demonstrate knowledge and abilities they are only beginning to learn. I have created a working Google spreadsheet of all of the child development students tracking their progress in the program. This spreadsheet has been shared with the success coach to help with advising. I update this spreadsheet several times a semester to add students when they start the program. This helps me to identify when they should be taking classes, again to ensure new students are not taking Key Assessment classes their first year in the program.

PUBLIC SERVICE: 4-8, 8-12 & EC-6 CERTIFICATION – AAT

Program Learning Outcome Curriculum Map

COURSE	1 ST GOAL	2 ND GOAL	3 RD GOAL	4 TH GOAL	5 TH GOAL
	Describe the current educational landscape including student diversity, laws, current trends, issues, and reforms	The student will be able to explain the diversity and unique instructional needs of students in the classroom including academic diversity, SES, language, gender, ethnicity, exceptionalities and equity and factors that facilitate learning.	The student will design and assess curriculum and lesson plans including differentiated instruction and strategies to engage all learners including special populations	The students investigate and apply pedagogical practices by learning theories, philosophies, special education and current curriculum.	The students will develop reflection skills and demonstrate professionalism in the college and public school classrooms.

2022 – 2023 Academic Year Assessment
Program Learning Outcomes (PLO) & Document of Improvement (DOI)
PUBLIC SERVICE: POLICE ACADEMY – CERTIFICATION

PLO MEASURED

Increase overall passing rates on the TCOLE State Licensure Exam from 91% to 100% through the use of additional exams and reviews to reinforce the content presented throughout the academy. Develop study guides for the cadets, as well as encouraging the use of TEEX to prepare for the state licensure exam.

CORE CURRICULUM COMPONENT

CT3: Students will analyze, evaluate, and synthesize information.

DESIRED RESULTS

Increase the overall passing rates on the TCOLE State Licensure Exam.

COLLECTION METHOD DATA

TCOLE State Licensure Exam results

ASSESSMENT MEASURE

DIRECT

ASSESSMENT METHOD

Cadets completed the TCOLE State Licensure Exam upon successful completion of the academy. Of the 50 who took the TCOLE exam, 46 passed or 92% overall.

HISTORICAL AGGREGATED COURSE RESULT

TCOLE State Licensure Exam scores overall have increased, as has the numbers of cadets passing on the first attempt. Exam scores have also continued to increase through the use of study sessions, handouts and reviews.

DISAGGREGATED INSTRUCTIONAL METHOD/LOCATIONS

FACE-TO-FACE

Lecture, TRPA Classroom

Grayson County Firearms Range (Weapons Qualifications) and Frisco PD Driving Track (Professional Police Driving).

CURRENT AGGREGATED RESULT

100% of the cadets passed firearms qualifications and police driving exercises.

IMPROVEMENT PLAN 2022-2023 RESULTS CYCLE ONE PLO 2 & 3

INSTRUCTION

Hired additional subject matter experts for areas such as firearms, SFST and subject specific areas such as Code of Criminal Procedure, Asset Forfeiture and Courtroom Demeanor.

CURRICULUM

Updated curriculum based upon changes in Texas Law, as well as providing additional handouts to provide a clearer understanding of the information that was presented.

ASSESSMENT

Updated question banks and provided additional study materials to prepare cadets for the state licensure exam (TCOLE).

DOCUMENT OF IMPROVEMENT PRIOR YEAR

INSTRUCTION

Will improve instruction by hiring additional academy instructors with specialized training certified in areas such as Standardized Field Sobriety Test (SFST) Instructor and Firearms, as well as subject matter experts from community agencies.

CURRICULUM

Updated all lesson plans and power point presentations to reflect TCOLE required curriculum for the Basic Peace Officer Course 1000696. Provided all instructors and cadets with the updated curriculum. ASSESSMENT

Updated all question banks for assessments to reflect changes in the curriculum and changes in the laws that passed in 2021. Updates for new laws beginning September 1, 2021 were completed as well.

DOCUMENTATION OF IMPROVEMENT PLAN 2023-2024 CYCLE ONE PLO 4 & CYCLE TWO PLO 1

Better instruction with specialized instructors, higher exam scores and overall class averages.

PLO MEASURED

Solving problems often involves working in teams. Students should be able to work effectively in groups to solve problems and interact productively with a diverse group of peers. (PLO3)

Students should be able to present information in a clear and organized manner, create visual representations of complex data sets, write well-organized and concise scientific reports, cite sources properly, and use appropriate technology (PLO2)

CORE CURRICULUM COMPONENT

CS1: Students will develop, interpret, and express ideas through written communication.

CT2: Students will gather and assess information relevant to a question.

CT3: Students will analyze, evaluate, and synthesize information.

EQS2: Students will describe, explain, and predict natural phenomena using the scientific method.

TW1: Students will work cooperatively with their peers and leaders to more effectively solve problems by utilizing insights from multiple perspectives.

DESIRED RESULTS

Students will complete the assessment with a 75% or higher average.

COLLECTION METHOD DATA

Data is collected based on grades for specific assignments or tests designed to measure the learning outcome.

ASSESSMENT MEASURE

DIRECT

ASSESSMENT METHOD

Various assignments are used during the semesters to measure this learning outcome.

IMPROVEMENT PLAN 2022-2023 RESULTS CYCLE ONE PLO 2 & 3

INSTRUCTION

We will be offering a hybrid Chemistry course in the Fall and tracking its success.
We will be working over the next couple of semesters to improve the presentation of materials in the Biology courses. More cooperation of instructors and sharing of ideas.

CURRICULUM

None are anticipated

TECHNOLOGY

We are looking to implement software for our Biological Science courses starting this Fall to improve student engagement and knowledge retention.
We will be using new engagement techniques in the Geological Sciences.
Chemistry courses will be utilizing.

ASSESSMENT

This will be determined by the use of the software product, Visible Body. But overall this is not the focus of this plan.

IMPROVEMENT PLAN 2022-2023 RESULTS CYCLE ONE PLO 2 & 3 CONTINUED

CURRICULUM MAP

2022 – 2023 Academic Year Assessment
Program Learning Outcomes (PLO) & Document of Improvement (DOI)
HEALTH SCIENCES: DENTAL ASSISTING – AAS

PLO MEASURED

PLO #4 Students will participate in extramural clinical experiences in a variety of offices throughout the dental community to gain practical experience and assist in job placement.

CORE CURRICULUM COMPONENT

CS1: Students will develop, interpret, and express ideas through written communication.
 CS2: Students will develop, interpret, and express ideas through oral communication.
 CS3: Students will develop, interpret, and express ideas through visual communication.
 CT1: Students will generate and communicate ideas by combining, changing, or reapplying existing information.
 PR1: Students will evaluate choices and actions, and relate consequences to decision making.

DESIRED RESULTS

90% or higher return of clinical partners based on student performance in clinical. 90 % or higher clinical partners respond with "yes" responses from clinical partners when evaluating students on being employable for DNTA 1460 Clinical I and DNTA 2260 Clinical II. Add 4-5 new clinical partners for students to participate new clinical experiences including additional specialty offices.

COLLECTION METHOD DATA

Formative and summative clinical evaluation tools.

ASSESSMENT MEASURE	ASSESSMENT METHOD
BOTH DIRECT & INDIRECT	Data was collected from the results of each course skill competency, faculty and clinical site evaluation of the student, and student evaluation of the clinical site. Evaluations are weighted at 35-40% of the students overall grade. Clinical Affiliation Agreements are kept up to date and closely monitored .

HISTORICAL AGGREGATED COURSE RESULT

Historically students performed well in the clinical setting. Clinical partners are pleased with the students skills performance. A decline in skills competency, student initiative, and employment rating was noticed in the 2021-2022 student evaluations.

DISAGGREGATED INSTRUCTIONAL METHOD/LOCATIONS	FACE-TO-FACE OFF-SITE LOCATIONS
<p>All dental assisting courses are taught Face-To-Face with the exception of the DNTA 1347 Dental Science course taught on-line. DNTA 1347 Dental Science course is an on-line course. To meet CODA Distance Education Standard, students must take all tests and final exams on campus through a proctored source. No Hybrid courses are offered at this time. Offered through extramural clinical sites for courses DNTA 1460 Clinical I and DNTA 2260 Clinical II.</p>	

CURRENT AGGREGATED RESULT

We began the Fall of 2022 with 17 students. At the beginning of the Spring semester we lost one student due to residency status being revoked. We had one student from last year return to complete the spring semester. Therefore, we are ending the 2022-20

IMPROVEMENT PLAN 2022-2023 RESULTS CYCLE ONE PLO 2 & 3

INSTRUCTION

Student feedback on adding in hands on activities in lecture and increased practice in lab has been positive, therefore improvements will continue to be made in both lectures and lab. Increased hands on activities will be added to lectures. Additional requirements of added practice will be required in lab to complete/practice skills learned prior to skill competencies.

CURRICULUM

Monitoring of curriculum alignment with CODA standards will continue, along with improvements to curriculum will take place as needed.

TECHNOLOGY

The DA classroom upgrades were delayed due to equipment back orders. The updated technologies such as screens and projector are scheduled to be installed within the 1-2 weeks. 10 of the 13 DA Canvas course shells have been redesigned and upgraded by iDes

ASSESSMENT

Changes made to the grading methods and revised skill competency evaluations were positive. The new methods aided instructors in identifying students weak areas as well as their strengths. The new method required the students to practice more and have a

DOCUMENT OF IMPROVEMENT PRIOR YEAR

INSTRUCTION

INSTRUCTION: Lectures have been restructured in order to keep students engaged. Designated tutoring times were added for students to practice weak skills, and reminders will be given more often so that students will take advantage of this offering.

CURRICULUM: We are restructuring all of our clinical skills check-offs and working to build up and enhance our Labs in order to simulate and practice more dental procedures as well as tray set-ups.

TECHNOLOGY: A new intraoral camera has been purchased in order to help students practice the technology of an intraoral camera prior to a clinical setting.

DOCUMENTATION OF IMPROVEMENT PLAN 2023-2024 CYCLE ONE PLO 4 & CYCLE TWO PLO 1

The results for the 2022-2023 program are pending the completion of the DNTA 2260 Clinical II (capstone) course on June 1st. The results based on the DNTA 1460 Clinical I course indicate an up tick in the students performance. Students eligible for employment based on their performance increased by 10%.

HEALTH SCIENCES: DENTAL ASSISTING – AAS

Program Learning Outcome Curriculum Map

COURSE	1 ST GOAL	2 ND GOAL	3 RD GOAL	4 TH GOAL	5 TH GOAL	6 TH GOAL
	Students will demonstrate mastery in the knowledge, technical skills, attitudes, and workplace skills necessary for successful employment in the dental assisting profession.	Students will demonstrate mastery of current methods, materials, supplies and equipment to meet occupational requirements and needs.	Students will be able to identify and meet the standards of performance expected of them in the dental field.	Students will participate in extramural clinical experiences in a variety of offices throughout the dental community to gain practical experience and assist in job placement.	Students will evaluate factors that can be used to promote patient/ client adherence to disease prevention and/or health maintenance.	Students will successfully complete the dental assistant program competencies to be prepared to meet the employment needs of the dental community and the ADA standards.

RECOMMENDATIONS FROM INTUITIONAL EFFECTIVENESS COORDINATOR – CAMILLE WILSON

2022 – 2023 Academic Year Assessment
Program Learning Outcomes (PLO) & Document of Improvement (DOI)
HEALTH SCIENCES: MEDICAL LABORATORY TECH – AAS

PLO MEASURED

PLO #2: Work with others and apply good safety practices

PLO #4: Understand and have good knowledge of laboratory accreditation.

Both PLO #2 and PLO #4 information is introduced in MLAB 1201 (Introduction to CLS). Safety and accreditation is then built upon throughout the MLT program courses. These topic questions, along with the laboratory mathematics is categorized in the Laboratory Operations, or LO, section of the Board of Certification, BOC, exam. The test scores in this particular section have decreased over the last two years.

CORE CURRICULUM COMPONENT

CT2: Students will gather and assess information relevant to a question.

EQS1: Students will understand key mathematical concepts and the application of appropriate quantitative tools to everyday experience.

DESIRED RESULTS

MLT program wants their graduates to have increased testing scores which represent knowledge of safety, accreditation and laboratory statistics.

COLLECTION METHOD DATA

Certification Pass Rates:

Three years consecutive results of of graduate certification rates demonstration an average of at least 75% pass rate on the ASCP-BOC examinations, for those who take the exam within the first year of graduation. These program performance reports (PPRs) can be broken down to specific subjects. The following are those:

Blood bank	UA
Chemistry	Hematology
Immunology	Microbiology

Lab Operations - Lab operations is course within the Grayson College MLT program as well as section of the Board of Certification (BOC) exam. It is a section that incorporates questions concerning safety, accreditation, laboratory statistics and technology.

ASSESSMENT MEASURE

DIRECT

ASSESSMENT METHOD

The program director will gather data by using the BOC program performance report accessible only to registered program directors of accredited programs. The Lab Operations section can be pulled and assessed.

HISTORICAL AGGREGATED COURSE RESULT

The current, three-year average from the ASCP BOC certification pass rated of graduates from the following years:

7/1/19 - 6/30/20 (87.5%)

7/1/20 - 6/30/21 (66.7%)

7/1/21 - 6/30/22 (91.6%)

*Three year average is 79.0%

A total of 400 points in the section is required to considered passing. For the year of 1/1/21 - 5/8/22, the LO average was 517. For the year of 1/1/22 - 5/8/23, the LO average dropped to 478.

DISAGGREGATED INSTRUCTIONAL METHOD/LOCATIONS	HYBRID
--	--------

Six students out of seventeen students (35%) of graduates did not pass this section from 1/1/22 to 5/8/23. The program average for this section is 478. Where the national average is higher at 499.

CURRENT AGGREGATED RESULT

All of our program courses, with the exception of clinical courses, are taught in the hybrid format. In order to increase the pass rate of the Laboratory operation, the 2023 summer will be utilized to make certain all information from the LO sections of

IMPROVEMENT PLAN 2022-2023 RESULTS CYCLE ONE PLO 2 & 3
--

<u>CURRICULUM</u>

Work on MLAB 1201 curriculum over the summer of 23 to include more knowledge of safety and accreditation that would correlate to the Laboratory Operations (LO) section of the BOC exam.

<u>TECHNOLOGY</u>

The knowledge of laboratory technology is also part of the LO section of the BOC exam. Through e 22-23 Perkins Grant, the MLT program was able to acquire two miniPCR and electrophoresis simulators. This will help students better learn curriculum of molecu

<u>ASSESSMENT</u>

The program director will continue to monitor the BOC exam and LO section to statistically show an increase in knowledge.

These scores can be assessed through the exam simulator usage as well.

<u>DOCUMENT OF IMPROVEMENT PRIOR YEAR</u>

<u>INSTRUCTION</u>

INSTRUCTION: More mock quizzes. Students are encouraged to utilize the practices quizzes offered via the textbook publisher "Elsevier"

ASSESSMENT: Collecting data to show that student success rate after two failed attempts at MLAB 2238 drop significantly. This assessment, if proven, will be enough data to implement a rule of "2 attempt" limit for MLAB courses. The goal of this improvement, would to eliminate the non-successful repeaters of the course

DOCUMENTATION OF IMPROVEMENT PLAN 2023-2024 CYCLE ONE PLO 4 & CYCLE TWO PLO 1

The improvement plan implemented in the Fall of 2022 included the introduction of a mock interview by a current laboratory director. The laboratory director from Allied Health of Durant, Mr. Justin Bassett, volunteered his time to do this. He thoroughly interviewed seven student in the Fall and nine students in the Spring. He spent twenty minutes with each student.

He provided excellent feedback to each student, and the interviews were well received.

These soft skills were also developed by a job fair that required students to present resumes and visit with healthcare facilities.

Student placement is currently 100% for MLT program graduates.

HEALTH SCIENCES: MEDICAL LABORATORY TECH – AAS

RECOMMENDATIONS FROM INTUITIONAL EFFECTIVENESS COORDINATOR – CAMILLE WILSON

2022 – 2023 Academic Year Assessment
Program Learning Outcomes (PLO) & Document of Improvement (DOI)
HEALTH SCIENCES: NURSING RN TO BSN – BSN

PLO MEASURED

Demonstrate responsibility and accountability in the quality of care for patients, families, populations and communities.

CORE CURRICULUM COMPONENT

CS1: Students will develop, interpret, and express ideas through written communication.
 CS2: Students will develop, interpret, and express ideas through oral communication.
 CS3: Students will develop, interpret, and express ideas through visual communication.
 PR1: Students will evaluate choices and actions, and relate consequences to decision making.

DESIRED RESULTS

80% of students in the NURS 4454 course will demonstrate through a portfolio assignment a score of 3.0 or higher on the written narrative for the associated end-of-program student learning outcome as a Member of the Profession.

COLLECTION METHOD DATA

Collect and analyze the written narrative scores for each end-of-program student learning outcome

ASSESSMENT MEASURE	ASSESSMENT METHOD
DIRECT	Each end-of-program student learning outcome is mapped to course objectives and assignments. Through a portfolio project students must demonstrate how the end-of-program outcome was met through a written narrative and using examples from course assignments. A grading rubric for the written narrative has been established and is used when scoring students. These written narrative scores will then be analyzed to determine the percentage of students who met the intended result

HISTORICAL AGGREGATED COURSE RESULT

N/A

DISAGGREGATED INSTRUCTIONAL METHOD/LOCATIONS **HYBRID**

Hybrid:
 Fall 2022 = 100% of students scored a 3.0 or higher on the written narrative associated with this end-of-program student learning outcome

 Spring 2023 = 100% of students scored a 3.0 or higher on the written narrative associated with this end-of-program student learning outcome

 Summer 2023 = in progress

CURRENT AGGREGATED RESULT

All students scored a 3.0 or higher on the written narrative associated with this end-of-program student learning outcomes during the Fall 2022 and Spring 2023 semesters; Summer 2023 is pending.

IMPROVEMENT PLAN 2022-2023 RESULTS CYCLE ONE PLO 2 & 3

ASSESSMENT

ASSESSMENT:

Evaluate scoring criteria of written narrative for portfolio project to ensure alignment with meeting end-of-program student learning outcomes in the area of Member of the Profession

DOCUMENT OF IMPROVEMENT PRIOR YEAR
