Teaching Experience

Current- Grayson College Denison, TX

- **Nursing Instructor-** Assist in developing, implementing, and evaluating nursing curricula in accordance with the academic standards of Grayson College, regulatory agencies and the Associate Degree Nursing Program philosophy and mission. Responsible for teaching curriculum and clinical. •Overseeing the nursing 4 theory and clinical experience. Responsible for theory and clinical objectives, course calendar, assignments, theory tests, 4 other faculty members, meeting accreditation standards, as well as Texas Board of Nursing standards. •Adjunct instructor for Bachelor's of Science in Nursing.

**February 2004-August 2010: Tri County Technology
Bartlesville, OK**

• **LPN Instructor-** Responsible for teaching practical nursing Students Nursing Concepts, Nursing Skills, Nutrition, Medical Surgical Nursing, Mental Health and Nursing through the Life Span, as well as clinicals. My role was to develop and deliver theory/didactic, laboratory and clinical instruction, plan and prepare courses in accordance with the philosophy and objectives of the school, determine course goals, select and organize learning experiences, plan and supervise clinical experiences, prepare, administer, and grade examinations to determine student progress, assist students in self-evaluations and problem solving techniques, promote constructive inter-relationships with students and faculty, assist with the budget and selection of textbooks, participate in professional growth activities, and participate in the development, planning, and evaluation, and revision of the program.

Professional Experience

February 2011-Currently: Texoma Medical Center

• **PRN Position in ER-RN-** Apply expertise in rapid assessments and treatments, particularly upon patient arrival to the ER during initial phase of acute illness and trauma; treat a variety of illnesses/injuries in children and adults, from minor bacterial infections, to cardiac arrests, to emergency trauma situations. • Assist with various emergency procedures, treatments and techniques; work within a multi-disciplinary environment to ensure that the highest level of care is maintained at all times. • Identify and meet patient/family learning and discharge needs upon admission through discharge; executed necessary trauma, emergency and rapid assessment processes while providing comfort and care to patients and families in emergency situations. • Perform focused assessment of chief complaint on each patient in a timely manner according to established triage guidelines.

August 2010-February 2011 Texoma Medical Center

• **PRN Position in ICU-RN-** Correctly monitor and assess patients on a continual basis. • Promptly report any changes in patient conditions to treating health care practioners. • Coordinate and consult with healthcare team to enhance and promote

positive patient outcomes. • Analyze lab results and present to the treating health care practitioners. • Administer various forms of infusion therapy. • Closely observed changes from continuous respiratory and cardiac readings. • Provided information and support to families of patients.

May 2001-November 2010- Jane Phillips Medical Center

• **Post Anesthesia Care Unit (PACU)- RN-** Phase 1 recovery such as maintaining patient's airway, breathing, and circulation on arrival to recovery room, pain and cardiac medication administration, extubating patients, dressing changes, maintaining surgical drains, assessing incision sites and use of cardiac monitors, and assessing patient's overall anesthesia effects.

• **One Day Surgery- RN-** Responsible for admission assessments, EKG's, Lab Draws, pre-operative preps, IV skills, discharge teaching, quality assurance, and conscious sedation. The basic goal was preparing my patients for their surgical experience.

• **OR Circulator- RN-** Prepare the OR prior to procedures, gathering all supplies needed for procedure, assess patients prior to surgery and help alleviate concerns, manage the necessary care inside the surgical suite, assist the surgical team in maintaining a safe and sterilized environment for the patient, assist post recovery nurse as needed. After 2 years, I worked primarily with urology cases.

• **Float Pool- RN-** Provided patient care, working in multiple units including ICU, Neuro ICU, and occasionally Behavioral Services. Administered medications, treatments, provided patient care, performed wound care, collaborated with multidisciplinary teams to provide appropriate care in accordance with unit standards, report abnormal findings to HCP, and applied appropriate interventions as needed/ordered.

• **Medical Surgical Floor- RN-** Responsibilities included being a charge nurse, admission and focus assessments, starting IV's, applying dressing changes, inserting nasogastric tubes, inserting and maintenance of urinary catheters, lab draws, narrative charting. Other duties included mentoring nurses and students, quality assurance, computer charting, as well as other administrative responsibilities.
