**Fiscal Year Ending  
August 31, 2013**

6101 Grayson Dr. ~ Denison, TX 75020 ~ 903-465-6030

**GRAYSON COLLEGE**  
**DISCUSSION OF OPERATING BUDGET FOR 2012-2013 FISCAL YEAR**

**SUMMARY**

The expectation of a significant decrease in enrollment is the most noteworthy factor in the budget for the unrestricted fund for fiscal year 2012-2013, with implications for both revenue and expenditures. Changes in the administration of Federal financial aid are the biggest drivers of this decrease.

The budget addresses this concern with the increases in tuition and fee rates that have already been approved, with changing the budget approach to be less conservative, and with holding the line on new programs.

A two percent wage increase is funded by a change in how salary expense is budgeted. Traditionally, the college has budgeted as if each approved position would be filled for the entire fiscal year. However, there are always vacancies that occur. The 2012-2013 budget recognizes that fact by providing for each position as if it were to be filled ninety-eight percent of the time.

**UNRESTRICTED FUND REVENUE**

Total revenue in the budget is only \$10,466, or .04%, higher than total revenue in the approved 2011-2012 budget. Small increases in local property taxes and other revenue slightly exceed small decreases in tuition and fees and in funding from the State of Texas.

**Tuition and Fees:** Enrollment is projected to decrease by ten percent. The budget covers the decrease in tuition revenue that would result by: (1) the increases in tuition rates and in the student services fee that have already been approved, and (2) by a more aggressive approach to budgeting tuition revenue from the Center for Workplace Learning (CWL).

As noted above, changes in Federal financial aid are the biggest reasons for the projected decline in enrollment. In the future, Federal aid will no longer be available to students that lack a high school diploma or a GED. Also, the requirements for satisfactory academic progress (SAP) have been tightened. The tightening includes reviewing a student's success over a longer period of time and restricting the process to appeal the loss of aid because of poor academic performance. Additionally, new rules limit the number of full-time equivalent semesters that can be funded through Federal financial aid.

Other factors that will tend to diminish enrollment include the new requirement for Meningitis vaccinations, a change in the college's probationary policy and the closing of Jensen Dorm. The college will make a good faith effort to encourage students to comply with the vaccination requirement, but it may be forced to withdraw some

students if they refuse to be vaccinated or sign a waiver form. The college will limit the number of credit hours that a student with a grade point average below 2.0 can take. This is important for student success, but will lessen enrollment. While closing Jensen Dorm and maximizing the occupancy of Viking Dorm is a good move financially, it may also hurt enrollment slightly from out-of-district and non-resident students.

The revenue shortfall from the projected drop in enrollment will be partially off-set by the higher rates for tuition and for the student services fee that have already been approved. At their October 2011 meeting, the Board of Trustees approved a \$5 increase in the student services fee and a \$1 decrease in tuition rates. At their April 2012 meeting the Board approved tuition rate increases of \$4 for in-district, \$7 for out-of-district, and \$7 for non-resident. All these rates are per credit hour.

The revenue shortfall from the projected drop in enrollment will also be partially off-set by a more aggressive approach to budgeting for tuition from the Center for Workplace Learning (CWL). Because this revenue stream is largely dependent on competitive grant funding, the college has always taken a very conservative approach in budgeting. For the past several fiscal years, actual performance has exceeded the conservative budgets. With input from the Vice President for Instructional Services, the Vice President for Business Services, the Executive Director of the CWL and the Director of Fiscal Services, the 2012-2013 budget is approximately \$475,000 higher than the approved 2011-2012 budget for this revenue stream.

**State Appropriations:** As opposed to the past when the second year of the biennium funding from the State of Texas was identical to that of the first year, now the funding of each community college is adjusted based on its change in enrollment as compared to that of all the other community colleges. The budgeted amount for 2012-2013 represents the worst case scenario, which is that our funding from the State of Texas will decrease by approximately \$133,000, or almost two percent.

**Local Taxes:** The 2012-2013 budget is built on a total property tax rate of \$.1818 per \$100 valuation. That rate is identical to the total tax rate from the prior two fiscal years. The total rate is the sum of two components. The maintenance and operation rate (M&O) supports the educational activities of the school and is accounted for in the unrestricted fund. The interest and sinking rate (I&S) provides resources to repay outstanding general obligation debt. For the 2012-2013 budget, the M&O rate decreased slightly, while the I&S rate increased slightly.

Property tax revenue in the unrestricted fund is budgeted to increase by approximately \$140,000 from the 2011-2012 budget because total taxable values increased.

**Other Revenue:** The 2012-2013 budget projects a higher level of other revenue than was contained in the approved 2011-2012 budget. The primary reason for the increase is the administration of the late registration fee. The college now collects this fee earlier in the registration process. The earlier imposition of this fee will generate approximately \$49,000 in additional revenue.

## **UNRESTRICTED FUND EXPENDITURES**

Total expenditures in the 2012-2013 budget are only \$10,466, or .04%, higher than total expenditures in the approved 2011-2012 budget. Expenditure categories that contain significant increases include salaries for non-adjunct employees, contract labor and bad debt expenses. These are essentially off-set by decreases in salaries for adjunct employees, employee benefits, and service contracts.

**Salaries for Non-Adjunct Employees:** As noted above the 2012-2013 budget contains a two percent wage increase that is funded by a change in budget procedures. Each position is budgeted at ninety-eight percent of its approved amount in recognition that not every position will be filled throughout the fiscal year.

The increase in the 2012-2013 budget as compared to the approved 2011-2012 budget reflects the bringing of janitorial services back in-house and the creation of a phone bank.

In an attempt to save money, the college contracted with a private company to do the majority of its janitorial work. However, the quality of the work was so poor that, after repeated attempts to improve the quality, the college voided the contract with the private company and hired its own janitors again. Many of the new positions are part-time without benefits so the amount of the savings is essentially the same as with the private company. This adds approximately \$133,000 in salaries to the budget, but that is more than off-set by the decrease in contract services expenses as explained below.

Also, the 2012-2013 budget contains funding for a new phone bank department. Staffed by one coordinator and part-time employees, the goal of the phone bank is to improve customer service by providing immediate and accurate information to anyone that calls admissions and records, counseling, financial aid, or the business office. Those calls that require a higher level of expertise will still be referred to the appropriate department. This new department will add approximately \$66,000 in salaries to the budget.

**Salaries for Adjunct Employees:** The number of adjunct professors that will be required will be less in the 2012-2013 fiscal year under the assumption that enrollment will decrease by ten percent. The decrease in the adjunct salary budget is less than ten percent because many classes will still be taught by part-time instructors but with fewer students in each section.

**Employee Benefits:** While the cuts in benefit funding from the State of Texas were severe in fiscal year 2011-2012, they were not as bad as was feared in the approved 2011-2012 approved budget. We lost approximately \$1,000,000 in funding for health insurance, but the 2011-2012 budget assumed a loss of approximately \$1,300,000.

Also, we lost approximately \$150,000 in state funding for pensions, but the 2011-2012 assumed a loss of approximately \$200,000. The state funding for pensions is still under dispute.

**Professional Fees/Contract Labor:** The increase in contract labor is related to the increase in tuition revenue from the CWL. The same task force that worked to refine the budgeting for CWL revenue was mindful to capture the cost of providing that instruction.

**Service Contracts:** The decrease in service contracts is related to dropping the contract for janitorial services with an outside company and re-establishing an in-house crew. The budget for service contracts in the Building Maintenance Department decreased approximately \$200,000 from the approved 2011-2012 budget to the 2012-2013 budget.

**Bad Debt Expense:** This category primarily deals with returning Federal financial aid to the U. S. Department of Education for students that receive failing grades in all their classes or withdraw from all their classes after receiving the aid. If the college is not successful in collecting that aid back from the student, then it must repay the government from its own resources. The 2011-2012 budget did not contain sufficient funding for this expense. The 2012-2013 budget has a sizable increase in this expense to correct that.

#### **AUXILIARY FUND**

The goal of the auxiliary fund is to provide resources to the college through related business-like operations. The bookstore continues to provide the most resources to the college by far. The food service, which is contracted to Great Western Dining, also provides some resources. Closing Jensen Dorm, maximizing the occupancy of Viking Dorm and raising the amount charged to students should restore the housing operation to a positive cash flow.

The golf course continues to lose money, as has been reported in the past. Expenses are as low as they can go and still operate the course. Additional revenue is needed. The course has started selling beer, and after the initial no-interest loans that set up this operation are repaid, beer sales should provide approximately \$10,000 of net cash flow per year to the golf course. However, a significant increase in the number of golfers is needed for the course to cover its expenses.
