A group of twelve Grayson Phi Theta Kappa members traveled to Houston on 27 February to attend the Phi Theta Kappa Texas Regional Convention. Texas is a large enough state that it has a rea- lity all its own with the exceptions of one instance in Kansas or Bay, we rallied with approximately 2,500 people from all across the state. The convention was a chance to tour the campuses, speak with officers and say ‘goodbye’ to those graduating. We were also able to network, as well as both new and meet people, some- thing that is crucial in maintaining our comfort zones. What an awesome chance for person-

The Million Records Project (MRP) was planned and implemented by Student Veterans at Grayson to address gaps in knowl- edge and ultimately determine and develop policies that foster student veterans alike. Until MRP, accurate data for academic outcomes of student veterans had been marred with inconsistent methods of data collection due to a lack of focus on student veteran completion rates. The result of these data was a strong partnership among SVA, the Texas Department of Veterans Affairs, the U.S. De- partment of Veterans Affairs, Grayson College, and the postsecondary academic institutions. Our Lady Vikings are 11-5 in Conference play riding a two-game winning streak. The Lady Vikings defeated Ranger College at home 2 and 3 March after being detained by the ice storm. Everyone is glad to be back home and eager for Navigation in April.

The Chapter Awards will soon be in the display case in the Liberal Arts Building so that we can share our suc- cess with all of Grayson! Did you get an invitation from Phi Theta Kappa? Why not get a membership today and join us at the next convention?

Prime demand for student veterans

Our Grayson College student veterans have attended the Phi Theta Kappa Texas Regional Convention since 2007. The Phi Theta Kappa has over 1.5 million members, and we are very proud to have been one of the first chapters to attend the conference. We have attended the convention for the past ten years, and we are excited to see how it has grown over the years. We have also met many other student veterans from across the state, and we have learned a lot from them.

The convention is a great opportunity to meet other student veterans and share our experiences with them. We have also been able to connect with other chapters from across the state and learn from their experiences. The convention is a great chance to network and make new friends.

The convention also offers a variety of workshops and seminars, which cover a wide range of topics, such as veterans' benefits, career development, and personal growth. We have attended many of these workshops and have found them to be very beneficial.

In addition to the workshops, there is also a lot of socializing and networking that takes place at the convention. We have had the opportunity to meet many other student veterans and learn from their experiences.

Overall, the Phi Theta Kappa Texas Regional Convention is a great opportunity to meet other student veterans, learn from their experiences, and connect with others from across the state.

Veteran achievement in higher ed: Million Records Project

Sallie Mae, a member of the Federal Family Education Loan Program’s three-company, has announced that it will separate into two distinct companies. Student Loan Servicing LLC (Sallie Mae) and Navient will replace Sallie Mae as the servicer of federal student loans owned by the U.S. Department of Education (ED) and the Federal Family Education Loan Program (Direct Loan) Program and will be the servicer of federal loans owned by the U.S. Department of Education (ED). Your federal student loans will be impacted by this change and any actions you may need to take.

No. If Sallie Mae is not your preferred payment method for your federal student loans, you will be able to continue using your preferred method after the name change occurs, you’ll need to begin using the phone number, mailing address, and payment website associated with the new company, Navient.

Will I need to do anything different after the name change occurs in fall 2014? If Sallie Mae is the loan servicer of your federal student loans, you will receive information in the coming months, with guidance about those loans.

Will I need to take any action if Sallie Mae is not my federal loan servicer? If Sallie Mae is your federal loan servicer, you will need to take action if the servicer name changes, and it will not impact the existing terms, conditions, interest rate or available repayment plans of your federal student loans.

Will I need to redo actions related to the current status of my federal student loan account (for example, agreement for a deferment or forbearance) after the name change occurs in fall 2014? No. Your federal student loan account status will not change after the name change to Navient in fall 2014.

Will I need to change the payment address used by Sallie Mae? You’ll need to change your payment address if you want to continue using automatic debit with Sallie Mae. You’ll need to take action only if you decide to change payment methods later.

Will I need to redo actions related to the current status of my federal student loan account (for example, agreement for a deferment or forbearance) after the name change occurs in fall 2014? No. Your federal student loan account status will not change after the name change to Navient in fall 2014.

The Cultural Diversity Club is happy to inform that we have completed all of our presentations for this semester. On March 19, we presented our final presentation for the semester and we presented in the Howe Middle School. The presentation was on the topic of Israel and the Arab countries, and it was presented by Mr. Bara.

Overall, we have presented in six districts throughout this semester, and we hope you will enjoy the presentations and that they will help raise money to fight cancer.

Each semester we try to do at least four presentations in the middle and elementary schools; during these presentations we cover various topics such as dances, rites, music, food, clothing, and many more. This does not, however, mean that all of our members from presenting on other topics such as politics and social issues of general. This is the fact that we must always remain on a level with the common people andვิναινοὶ

Relay for Life is an important event not just in our area but also across the county and around the globe. This year we will have three events, the first one is on April 4th, the second one is on April 15th, and the third one is on April 22nd.

Our Phi Theta Kappa chapter is known as the “Flamingos” and we are an international chapter that is part of the Phi Theta Kappa (PTK) organization. Our chapter is involved in various activities and we work on bringing our members together and unifying our uniqueness of our respective campuses.

The two schools we have chosen to participate in Relay For Life are Montessori Academy of North Texas and the North Texas Community College. These two schools are known as The “Walking for a Global Cure.”

Throughout the semester, we have been working hard to raise money and awareness for cancer. Our chapter is currently planning our annual Relay For Life event, which will be held on April 22nd from 6 p.m. to 11 p.m. at the Denison High School.

Many of our members, including myself, are involved in the planning process and we are working hard to make this year’s event a success. We are looking for new members to join our chapter and help us reach our fundraising goal. Please consider joining us to make a difference in the fight against cancer.

The information presented in this document is based on a previous year's Relay For Life event and is intended to provide insight into our approach and strategies for the upcoming event. We encourage you to support our efforts and contribute to the cause of fighting cancer. Together, we can make a difference.
"An Educated Evening" combines food, wine and scholarship

Rebecca Jones
Editor

In its third year, Grayson College’s "An Educated Evening" program is relatively new to the North Texas community at large. The annual Wine Weekend tour, as announced by Dr. Joseph Watson, Chair of the GC Culinary Arts Department, is planned to continue through the year, with "A Taste of Wine" this year.

"I have always been involved in the European grape and wine culture. I am keen to bring that experience and knowledge of the Spanish tradition over to the students," said Watson, who has worked in the wine industry for over 20 years. "We are looking to share that experience with our students and to continue to enrich the educational experience for our students.

To celebrate the third annual event, the GC Wine Club hosted its third annual "An Educated Evening," which included a wine and food pairing, a wine tasting session, and a lecture on the history and culture of wine in Spain.

The evening began with a welcome speech by Watson, followed by a brief history of the Spanish wine industry and its impact on the global market. The students were then given the opportunity to taste a variety of Spanish wines, each paired with a different type of food.

"We have always been involved in the European grape and wine culture. I am keen to bring that experience and knowledge of the Spanish tradition over to the students," said Watson, who has worked in the wine industry for over 20 years. "We are looking to share that experience with our students and to continue to enrich the educational experience for our students.

The evening concluded with a lecture by Watson on the importance of wine and food pairing, and how it can enhance the overall dining experience.

The students were given the opportunity to ask Watson questions about the wine industry and its impact on the local community.

“Sitting Shiva,” a Jewish tradition of mourning explained

Shiva are over everything falls back into place for the most part. There are only a few traditions left to do, which only the mourners’ family, often the mother of the deceased, and my aunt Kim and my mother are the only two in mourning, but the family and friends are all in greeving.

All of the traditions and rituals that we ever did as a family were for my grandmother. We did everything we could to keep a smile on her face.

She was my motivation to graduate early, because I wanted her to be there to see it. Thankfully she was, and she also saw me begin my journey in college. Though she isn’t here with us now she is watching over all of us everyday. B. Wade

B. F. Wade on 64 years of service "I have no intentions of retiring"

Wade said he plans on continuing to work, as long as he’s in good health and able to fulfill his duties. Wade said "I have no date set to retire, I have no intentions of retiring," he said. "I’m happy with what I have and will continue as long as I want to."

Financial aid officer at GC and the World, Werner said, "I have been able to be close to many students over the years and I hope I can continue as long as I want to."

Meetings held on the first Monday of each month

For information on career opportunities and or general information call 859/638-8029 or visit the Office of the Dean of Students, located in the Student Center, room 107. Please be prompt with your requests. The window for this event is 1 hour and 30 minutes before the start of the hour."
